The American Institute of Architects (AIA)  
Continuing Education System  
Renlita Registered Provider Program Summary Handout

Provider: Renlita Custom Opening Solutions  
AIA Course Number: IRD08B  
Course Title: Architectural Vertical Opening Solutions

Description
This course will discuss vertical operation doors, their construction and operating mechanisms, and their architectural applications and contributions to sustainable initiatives.

Learning Objectives
By completing this course the design professional will be able to:

1. **Compare and contrast** vertical operating systems and discuss their components and safety features
2. **Explain** how vertical operating systems interact with the building structure
3. **Identify** how counterweight balance systems benefit users and occupants both in terms of ease of operability and contributions to the indoor environment
4. **Describe** how vertical operating systems contribute to a sustainable design and LEED certification

Method of Delivery
The course is offered to design professionals in a lunch and learn classroom setting. The course is presented in PowerPoint.

Cost to Participants
The course is sponsored by the manufacturer and is therefore offered to designers at no cost.
